product

ZENITH TINS
The Canmaker

About Us

As we enter our 75th year of successful presence, we feel proud and privileged to share with you our reasons for celebration.

- ★ At Zenith Tins, we make sure that every package we create is a masterpiece. Because we understand, that a well-crafted package is half the battle won.
- ★ As the world moves towards a more environmentally-responsible attitude, metal cans present themselves as an ideal way to package products. Metal packaging is completely recyclable, versatile, strong and hygienic.
- ★ Metal is durable, multi-faceted and evergreen. There is almost no other packaging option as efficient and economical as tin cans.
- ★ Zenith Tins Private Limited is today a one-stop solution for all your metal packaging needs. Among the foremost printed tin can manufacturers in India, we cater to a range of high-profile clients and produce a wide variety of tin packages, depending on the requirements of the product.
- ★ With offices in Maharashtra and Gujarat and an impressive roster of clients, we can count ourselves among the best in the business.
- ★ Our operations and infrastructure has been certified with the prestigious ISO 9001 (Quality), ISO 22001 (Food Safety), ISO 14001 (Environmental Mgmt.) and ISO 18001 (Health and Safety) certifications.
- ★ Our industrial units, spread over 50,000 sq.ft, boast of high-end and up-to-date equipment that enable us to produce an array of packages, depending upon the requirements of our clients.
- ★ Creating quality products is our foremost priority. The excellence of our products are reflected in the many awards we have received for packaging excellence, from the Tinplate Promotion Council of India, over the years.
- ★ Whatever your packaging needs, we are here to help. Whether it's for beauty products, chocolates and other edibles, paints and wax or serving trays, our offerings are varied and innovative.
- ★ We have two plants, one in Nerul (Navi Mumbai) and the other in Chhani (Baroda), both of which are fully equipped with high-end equipments, produced in India as well as abroad.
- ★ Zenith Tins is the first and only Indian company to have installed the Primex P-452 metal decorating machine and Primex C-452 coating machine. Both machines are products of the Japanese giant Fuji Kogyo Co. Ltd.

- ★ Besides these, both our manufacturing facilities are equipped with high quality automatic and semi-automatic body-makers and presses. Not only do we have state-of-the-art machinery procured from renowned companies such as Soudronic (Switzerland), Meltog (Germany), Mechnelonic and Mercury (both from India), we have even developed our own machines to further your packaging projects most efficiently.
- ★ We are striving to bring in the latest packaging technologies to our set-up, to create newer and more innovative solutions in tin casing. We hope to continually create products that are kind to the environment, helpful to society and supportive of sustainable development.

Awards

The Zenith of Excellence... in India and abroad

Making packaging work is the whole idea behind Zenith.

Each Package bears eloquent testimony to the infinite care and patience that goes into its creation, a dedicated uncompromising search for the package that will best serve its purpose in terms of utility, practicality, economy and above all, distinction.

For, ultimately, a Zenith Container is never merely a package for a product. It is a sales promotion technique in itself!

A measure of Zenith Tins having achieved this objective can be had in the number of Awards our packages have won for themselves: 30 National Awards for excellence in printing and design, nobly complemented by the India Stars, World Star 1995, Can of the Year 2000 and CLIO Award for the best packaging.
